

# FDB PRIZM™ MEDICAL DEVICE KNOWLEDGE PLATFORM

## Medical Device Knowledge Checklist for Supply Chain Developers

Please check the following items if your organization is prepared for the following:

- Are your clients satisfied with managing their item master list in your system?
- Can your system capture items outside the item master/device library?
- Are your clients struggling with bad orders from inaccurate product descriptions?
- Do your users face challenges in handling recalls?
- Does your system adequately capture current inventory?
- Does your system address trunk stock and items on consignment?
- Do your clients have data from your Item Master to other systems?
- Is the implementation of UDI part of your product roadmap?

**Submit your checklist to learn how FDB Prizm™ medical device platform can help improve clinical outcomes, operational efficiency, and financial performance for your customers.**

**For more information, contact Sales today at 800.633.3453. Or, visit [fdbprizm.com](http://fdbprizm.com)**

# FDB PRIZM™ MEDICAL DEVICE KNOWLEDGE PLATFORM

## Medical Device Knowledge Checklist for Supply Chain Provider

Please check the following items if your organization is prepared for the following:

- Is it a challenge to keep up the master item list in your system?
- Can you capture items outside the device library?
- Do you frequently receive bad orders due to having wrong product description?
- Do you have an efficient enterprise-wide device recall process?
- Is it difficult to capture current inventory?
- Does your system address trunk stock and consignment items?
- Do you face system interoperability issues with device information?
- Is it difficult to update and maintain your item master list?
- Are you looking for ways to enhance efficiency, lower costs, and improve clinical outcomes?

**Submit your checklist to learn how FDB Prizm™ medical device knowledge platform can help improve clinical outcomes, operational efficiency, and financial performance for your organization.**
